

Ever feel like you need a clean and dry third hand to operate your faucet? Faucet Control™ can help. With hands-free operation, Faucet Control™ eliminates the need to touch your faucet with wet or messy hands. Faucet Control™ is easy to use – just press the foot pedal control to activate your faucet. Faucet Control™ is an ideal companion for any kitchen, laundry room, garage, or workshop faucet.

Faucet Control™ models for RV and Marine use are also available. Faucet Control™ will enhance your recreational lifestyle by providing you with complete control of your water consumption. Extend your fresh water supply and reduce your holding tank fill-rate with Faucet Control™.

Every Faucet Control™ includes an unlimited one-year warranty and factory repairs are available after warranty expiration. Faucet Control™ is designed to give you convenient, dependable service for years to come.

## Product Benefits

### Water Conservation

Conserving water is easy with Faucet Control™. Save money. Save energy. Conserve our natural resources. Reduce water consumption by 50 percent or more at any faucet location.

### Hands-Free Control

Controlling your faucet with your foot is as intuitive as controlling the speed of your car. Increasing your efficiency in the kitchen is easy when your hands are free.

### Reduces Germs and Bacteria

Kitchens harbor more bacteria than any room in your house. Handling your faucet spreads germs. Faucet Control™ increases hygiene in your kitchen.

### Eliminates Water-Spotted Counters

Is there anything more frustrating than cleaning hard water deposits from your countertops and faucets? Faucet Control™ eliminates this problem in your kitchen, saving you time and effort.

### Compatible with any Faucet

One lever or two knobs – Faucet Control™ works with any faucet.

### Do-It-Yourself Installation

Just follow the instructions included with every Faucet Control™. Refer to the back of this brochure for an overview of the installation instructions.

1. Strong Aluminum Case
2. Left Attachment Flange
3. Foot Pedal Connector
4. Hot Water Inlet (outlet on opposite side)
5. Cold Water Inlet (outlet on opposite side)
6. Stainless Steel Filter
7. 12-Volt Power Connector
8. Right Attachment Flange
9. Fuse Holder

## Installation Overview

- ① Install Faucet Control™ between water supply lines and faucet.
- ② Connect foot pedal to Faucet Control™.
- ③ Plug power supply into electrical outlet (or connect Faucet Control™ to RV or boat 12-Volt electrical system).
